- Claims 7 - 14 are renumbered as claims 6 –13 respectively.
- Claims 16 – 21 are renumbered as claims 14 – 19 respectively.
- Claim 23 is renumbered as claim 20
- Claims 25 - 26 are renumbered as claims 21 – 22 respectively.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Xiao-an Wang (Applicant Pro Se) on 9/25/2007.

The application has been amended as follows:

IN THE CLAIMS:

- In claim 17, element (c), change "assigning a set of channel-tap locations by a heuristic search based on said composite channel impulse response" to "assigning a set of channel-tap locations by a heuristic search based on said

composite channel impulse response, with each said channel tap depending on said composite channel impulse response”.

Reasons for Allowance

3. As indicated in the applicant's arguments (Remarks 9/19/2007, page 10), the prior art of record, including Kutz, Wang and Dabak fail to teach or suggest a method of assigning a set of channel-tap locations by a sequential (or heuristic) search based on said composite channel impulse response, with each said channel tap depending on said composite channel impulse response. In the prior art the channel tap locations are individually determined based on the location of each multipath separately, not the composite channel response (multipath).

4. Claims 1 – 5, 7 – 14, 16 – 21, 23, 25 - 26 are allowed.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
